

The Philosophy Behind Regional Pricing

DeepStem Pro is built on the belief that professional digital tools should be **accessible to everyone**, regardless of where they live or their economic circumstances. Regional pricing is not about devaluing the product — it's about **removing barriers** so that DJs, producers, and musicians in lower-income countries can access the same quality tools as those in wealthier nations.

💡 **The Core Principle:** A DJ in Nigeria shouldn't have to pay the same as a DJ in London when the average income is **~30x lower**. Fair pricing creates **opportunity**, drives **progression**, and builds **sustainable** global communities.

This report lists all 175 App Store countries, grouped by discount tier, with economic justifications based on **GDP per capita (2025)** and **World Bank income classifications**. The discounts are designed to be **progressive** — the lower the average income, the higher the discount.

Discount Tier Summary

0% 34 countries High-income economies	10–30% 28 countries Upper-middle income	40–50% 42 countries Lower-middle income	60% 71 countries Low-income & emerging

💡 A Message to Every Creator

🔑 Opportunity By making DeepStem Pro affordable in lower-income countries, you are unlocking creative potential for millions of aspiring DJs, producers, and musicians who otherwise couldn't afford professional tools. A DJ in Nigeria, a producer in Indonesia, or a musician in India can now access the same quality tools as someone in London or New York.	📈 Progression Access to professional tools enables skill development and career progression . When creators in emerging markets can use the same tools as their counterparts in developed countries, they can compete on a level playing field. This drives global musical diversity and elevates local music scenes onto the world stage.	🌱 Sustainability Fair pricing creates sustainable communities . When users feel valued and fairly treated, they become loyal customers, advocates, and contributors to the product's ecosystem. This builds a global, sustainable user base that grows organically, reducing churn and increasing lifetime value.
--	--	---

💡 **To every DJ, producer, and musician reading this:**
DeepStem Pro exists because we believe that **where you are born should never limit what you can create**. Whether you're in London, Lagos, Jakarta, or São Paulo — your sound matters, your voice matters, and your music deserves to be heard.
We priced this tool fairly in every country so that **talent, not money, is what decides who gets to make great music**. We're here to support your journey — from your first track to your biggest stage.
Keep creating. The world needs your sound. 🎧🎶
